## Robbery Prevented

During the past month we have caused the local prices ter, eggs, flour, sugar, potatoes and all other groceries to be lowered. We have prevented a combination of middlemen from increasing the prices even higher than they were. A raise in wages was granted a few months ago, and a conspiracy was on foot to raise the prices to get that extra fifty cents a day.

We have nipped that conspiracy, by giving honest prices upon newer, better goods than were ever brought to Tonopan before. We feel that we are entitled to some of your business, and will continue to keep the prices down for you.

One lady told us that her February groceries cost her \$72.80 and her March groceries for 31 days cost her \$47.15, a saving of \$25.65 by trading with us.

We ask you the questions: Have we proven that we could keep the conspiracy of middle men from raising prices? What would groceries have cost IF WE HAD NOT TAKEN UP THE BATTLE FOR YOU? We have the CLASSIEST line of groceries ever brought to Tonopah, and are getting more all the time. Nationally advertised goods with the prices printed upon the package, we sell at the advertised prices, because those prices are made at the factory while some other merchants have raised the price five and ten cents a package, upon the pretext that it costs more to do business in Tonopah (because of their lost accounts.) The prices on such goods are just the same now as they always have been. All we ask of you is that you give us a trial for a month and we guarantee satisfaction on every article, or money re-

SPECIAL-We are still running our Potato Special of Fifteen pounds for Fifty Cents, with every \$3.00 worth of other groceries that you buy. This is cheaper than potatoes are selling in California, Chicago or New York.
